

Robert Kim

Backend Software Engineer

Email: robert.kim@email.com | Phone: (555) 678-9012

Location: Seattle, WA | GitHub: github.com/robertkim

PROFESSIONAL SUMMARY

Experienced Backend Software Engineer with 6 years of expertise in server-side development, database design, and API development. Strong background in Python, Java, and cloud technologies.

TECHNICAL SKILLS

- Programming Languages: Python, Java, C++, SQL
- Backend: Django, Flask, Spring Boot, RESTful APIs
- Databases: PostgreSQL, MySQL, Redis, MongoDB
- Cloud: AWS, Azure, Docker, Kubernetes
- DevOps: Jenkins, Git, Linux
- Testing: pytest, JUnit, Postman
- Other: Microservices, API Design, System Architecture

PROFESSIONAL EXPERIENCE

Senior Backend Engineer | CloudTech Solutions | 2020 - Present

- Designed and developed scalable backend systems using Python and Django
- Built RESTful APIs serving millions of requests daily
- Implemented microservices architecture with Docker and Kubernetes
- Optimized database queries and improved system performance by 50%
- Led technical architecture decisions and mentored junior developers

Backend Developer | DataCorp | 2018 - 2020

- Developed backend services using Java and Spring Boot
- Designed database schemas and optimized query performance
- Built APIs for mobile and web applications
- Implemented authentication and authorization systems
- Collaborated with frontend teams on API integration

Software Engineer | TechStart | 2017 - 2018

- Developed server-side applications using Python
- Worked with PostgreSQL and Redis databases
- Built RESTful APIs and web services

- Gained experience with cloud deployment

EDUCATION

Master of Science in Computer Science

University of Washington | 2015 - 2017

Bachelor of Science in Computer Science

University of Washington | 2011 - 2015

GPA: 3.9/4.0

CERTIFICATIONS

- AWS Certified Solutions Architect
- Oracle Certified Java Developer
- Certified Kubernetes Administrator

PROJECTS

- High-Performance API Gateway: Built with Python and Redis
- Real-time Data Processing System: Developed with Java and Kafka
- Microservices Architecture: Designed scalable backend system
